

**2012 EngD Summer School
Efficient Fossil Energy Technologies
Co-organised and Hosted by the Shanghai Advanced Research
Institute, Chinese Academy of Sciences, Shanghai, China**

Competition for places

The University of Nottingham has **three** positions available for excellent UK PhD/EngD students to attend the Efficient Fossil Energy Technologies Summer School at the Shanghai Advanced Research Institute, Shanghai, China, 30th June to 11th July 2012.

UKCCSC Early Career Researcher Programme has agreed to pay up to **£1,500** towards the cost of attendance for each student.

Summer School activities

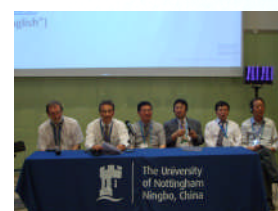

The summer school activities will focus on developing and broadening interdisciplinary knowledge of, and capacity to apply research in fossil energy and carbon capture and storage technologies to solve problems in a range of global settings. This enables students to develop an understanding of technical and social issues surrounding energy, the environment, climate change, development and socioeconomic agendas in different cultural settings (China and the UK) with focus on national and international policy relevance.

How to apply?

Applicants need to write an essay in 1,000 words or less, explain what skills and experiences they will bring to the Summer School in China, and what they hope to gain from this unique opportunity.

Applicants will be evaluated on the merit of their submission and letters of support. All PhD/EngD students studying in the UK are eligible to apply, assuming they will still be students in the autumn 2012 term. Completed applications and letters of support should be emailed directly to Prof. Colin Snape (Centre Director), efet@nottingham.ac.uk, by **noon** on **1st February 2012**. Late applications will not be considered.

Further information on the Efficient Fossil Energy Technologies EngD Centre and previous International Summer Schools are available on www.efetedc.ac.uk
